SKILLS

TECHNICAL SKILLS

- Programming Languages :

  - Software : C, C++, Python, R, Matlab, Julia
  - Systems : Shell/Bash
  - Robotics : C++, Arduino
  - Web : HTML, JavaScript, TypeScript, PHP, Java, CSS

- Frameworks & Development :

  - React, Vue.js, Spring,Yii2, Laravel, Flask, Vite, Node.js,Tailwind CSS, Bootstrap, AJAX, Chart.js

- Databases :

  - SQL, PostgreSQL, MySQL, Supabase, Firebase

- DevOps, Cloud & Networking :

  - Cisco CCNA 1 & 2, Modèle OSI, TCP/IP, VLAN
  - DNS,Routing & Switching, DHCP, Firewall, VPN
  - Sécurité réseau, Packet Tracer, Wireshark
  - Docker, GitLab , AWS, Netlify, Render, Railway

- Tools & Environments:

  - VS Code, Eclipse, IntelliJ, WebStorm, PHPStorm
  - Git, GitHub, Postman, Swagger
  - Jira, Notion, Figma
  - Linux, Windows, VirtualBox

SOFT SKILLS

- Teamwork
- Autonomy
- Adaptability
- Creativity
- Strong communication skills

PROFILE

Computer Science student currently completing a Bachelor's degree at the University of Avignon, while simultaneously pursuing a Bachelor of Computer Science at the University of Geneva.
I am seeking an apprenticeship for the 2026–2027 academic year, with a strong interest in software development, systems, and data-driven projects.
Curious, motivated, and detail-oriented, I enjoy learning new technologies, working in collaborative environments, and designing clean, reliable, and maintainable solutions to real-world problems.

EDUCATION

2025 2027 — **Bachelor of Computer Science (ongoing)**
University of Geneva – Switzerland

2023 2026 — **Bachelor's Degree in Computer Science (L3) (ongoing)**
University of Avignon – Avignon, France

2023 — **Scientific High School Diploma**
Lycée Jean Henri Fabre – Carpentras, France

PROFESSIONAL EXPERIENCE

2026 — **Python Developer Intern**
CEA - Marcoule (INSTN, UEM)
- Designed and developed Python tools to automate document generation workflows
- Built a simple and user-friendly graphical interface
- Collaborated within a technical team using Git for version control

2025 2026 — **Cashier**
B&M - Sorgues (Present)
- *Provided customer service and managed cash register operations*
- *Handled shelf stocking and inventory monitoring*

2025 — **Activity Leader**
MJC - Annemasse (Summer Job)
- *Supervised and organized recreational activities for children*
- *Developed strong teamwork, communication, and organizational skills*

2023 2024 — **Operations Assistant**
CERP- Pharmaceutical Laboratory
- *Verified batches and monitored expiration dates*
- *Assisted with inventory management and medication preparation*

2022 — **Architecture Intern**
Cabinet Gilles - Carpentras
- *Assisted with site surveys and technical drawings*
- *Supported the preparation of building permit documentation*

2021 — **Surveyor Intern**
Cabinet Grimont - Carpentras
- *Assisted with topographic surveys and land boundary measurements*
- *Processed spatial data using geomatics software*

LANGUAGES

- French: Native
- English: Fluent
- Arabic: Intermediate
- Italian: Intermediate

ACHIEVEMENTS

- 24h pour Coder Hackathon – 4th place
- 24h pour Entreprendre – Participant
- Translation Contests :
  - Arabic–French: 1st Prize
  - Italian–French: 3rd Prize

INTERESTS

- Sports
- Music (Guitar)
- Design & Painting
- Travel & Cultural
- Discovery,Podcasts & Video Editing

ACADEMIC & PERSONAL PROJECTS

EasyMonitor (Bash, Python, Flask, SQLite)
System monitoring tool with data collection, alert detection, and a web-based dashboard.

Luna Perla (PHP, HTML, CSS, JavaScript, PostgreSQL)
E-commerce website with customer interface and admin back office (products, orders, users).

MonCompilateur (C++, Lex/Flex, x86_64 Assembly)
Mini-compiler translating a simplified Pascal language into x86_64 assembly and ELF executable.

NetMarket (Java, JavaFX, PostgreSQL)
Desktop application for grocery store management with GUI and relational database.

Search Engine (Java)
Simplified search engine with corpus analysis, indexing, and relevance computation (TF-IDF).

Road Map (C++)
Road network modeling using graph algorithms for route optimization.

Arithmetic Expressions (C++)
Application for manipulating and evaluating arithmetic expressions using binary trees.

Hotel Reservation Website (PHP, HTML5, CSS3, JavaScript, MySQL)
Responsive hotel booking website with room management.

Maze Generator & Solver (C / C++)
Interactive maze generation and resolution using pathfinding algorithms.

Tic-Tac-Toe Min-Max (C++)
Console-based tic-tac-toe game with AI using the Min-Max algorithm.

Task Manager (Java, Spring Boot, PostgreSQL/MySQL)
Web application with authentication, CRUD operations, and task filtering.

24h_pour_coder (Hackathon) (JavaScript, AI)
Snake game featuring adaptive AI (Q-Learning), A pathfinding, and Boids algorithm.*

Collaborative Git Project (Python, GitHub)
Team project applying Git best practices and collaborative workflows.

Personal Portfolio (HTML, CSS, JavaScript)
Static portfolio showcasing projects and skills.

CERICar (PHP, Yii2, Bootstrap, PostgreSQL, AJAX)
Carpooling platform with user, trip, and booking management.

WithYou (React, Laravel, WebSockets, Supabase, PostgreSQL)
Real-time synchronized video-watching platform developed with a full-stack architecture.

Portfolio React/Vite (React, TypeScript)
Modern, responsive portfolio with animations.
